18 plus Hashers gathered at the Inn, with the early birds finding a parking space fairly easily and the late arrivals having more difficulty. GHR found a space in the car park but didn't like it so turned around and parked on the other side of the road blocking someone's drive. Other Hashers used the larger community hall car park. Loads of room!

Woody called everyone together and asked if there were any Hash Virgins

Mad Max shouted from outside the circle that his new dog 'Benji' was a Hash Virgin but don't come any closer as he had been locked up for the last 18months and was out Parole!!! (Probably had a tag on his collar)

Tiny Tanks suggested if you want food, order before the run, but you can order when you get back if you like?

Tiny Tanks explained, It's not a long trail, quite short actually, with the possibility (or not) of Fish Hooks, Back Tracks and Ha Ha's. The trail does go over private land but 'I've got permission' he promised. Not sure anyone believed him though.

3 long short splits he said and off we went.

## The Trail

The shorts went up a track and through a fields, longs went on the road, joining up again after a mile, through more fields to a road. Shorts went up and longs went down, and down, and down to a Ha Ha, yes he had put one in.

Back up the hill and the trail went into the Private Grounds of Ashbourne Woods, back to the road and we went past the On Inn, some were heard crying as they had to pass the Pub but were soon rewarded with a sweetie stop. The trail carried on and on mostly on road until we eventually made it back to the Pub.

So Much for a short hash!!

## On Downs in the Pub as we were so late back.

Woody called the circle to order and the Hares were thanked for laying the trail.

Tiny Tanks and Well Read (nominated Man Pig as she didn't like the beer)

Mad Max – who now has a Mad Dog

GHR – for going into the woods at every check and trying to entice any Harriet to go in with him!!
