This hash was billed a memorial hash for **Number 2**, who had recently lost her fight with leukaemia, and so in true hash spirit, it was to be a fun hash with a number of 'stops' on the way.

Some fresh faces presented themselves in the gathering circle. It was good to see **Dr Doolittle** who had made the trip all the way from Gloucester ... via Brixham!! As well as **Cheesy Chips**, **Vampire**, **Pitbull**, **Larks Vomit** and **Bluto** who we've not seen in a while

The trail initially headed through Eastcliff Park towards Dawlish. A L/S split saw the longs on a circular eastward trail! Unusually on the long, I was reconciled to having to reach Smugglers Lane before crossing back onto the sea wall, however, and despite the whispering FRBs, I was very happy to find that the trail used a service lane off Teignmouth Road to quickly returned us to the L/S split and then to a regroup close to Eastcliff Walk where refreshment was available in the form of neat shots of rum (I do like things tidy!) or pina colada cocktails, both in recognition of **Number 2's** fondness for all things Caribbean! Well done **Hole-in-One** and **No Butt!**

Another L/S split saw the longs head along the sea wall towards Dawlish. For those in the know (locals!) it was an obvious false trail and undertaken only by **Hairy Mollusc** and **Dr Doolittle** I think. The rest of us who stayed on trail and didn't head directly back to the car park (you know who you are!) took the sea front all the way to Back Beach and back through the town.

There were down-downs awarded to practically everyone, for practically anything and glasses were raise in memory of a fallen hasher. **Number 2 RIP.**

After the circle we headed to The Jolie Brise for something to eat, and then migrated to Dicey Reilly's for the live music. **Peanut** and '**Pete**' – yet to be named, but

attending the Isca Roman Awayday – were already there! Much partying continued until the pub finally kicked us out. A great send off!

On-on, Buzby
